1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-2, 4-5, and 31-48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. First, the claims are indefinite because they appear to be drawn to a plurality of syringes, an apparatus for measuring blood glucose or for biological fluid analysis, a method and a storage unit, all in the same claim. Note claim 1. Thus it is not clear exactly what statutory class of invention is being claimed. Additionally, the claims do not read properly in several instances. For example only, note the transition between claim 1 line 7 and line 10 of claim 1, or the transition between lines 14 and 15 of the same claim. Additionally, it is not clear what words or phrases such as “emanate” on line 21 of claim 1 are intended to encompass. In addition several elements of the claims appear to have been recited without proper antecedent basis. For example only, note the phrase “said medication chart” in claim 36. The claims are so indefinite for the reasons noted that they have not been further examined on their merits.
